## Expression of Interest

The Lead Laboratory for the Whole Organism Component (Bioassays and Fish Disease) is considering offering additional assays within the Quality Assurance scheme. Each would involve a single yearly intercalibration round. Registration fees will be dependent upon the number of interested laboratories. The Project Office would like to hear from organisations who wish to express interest in participating in one or more of the QA/QC exercises.

Please complete this form and email to the BEQUALM Project Office at the address above.

Assay	Please Tick if you would be interested in participating	
Yeast Oestrogen screen (YES assay)		
Lysosomal Fragility (Neutral Red Retention)		
	mussels	fish
DNA Adducts		
Acetylcholinesterase Activity
